Summary

Backend Software Engineer with expertise in scalable architectures and RESTful APIs using C#, ASP.NET Core, EF Core, and SQL Server, with full-stack delivery using Serenity Framework and React.js. Demonstrated technical leadership, clear communication, project ownership, problem solving, and cross-functional collaboration across medical, logistics, and e-commerce platforms.

Education

Benha University

Bachelor of Science in Computer Science; GPA: 3.29 / 4.00

Cairo, Egypt

2021 – 2025

- Graduation Project: PlantCare – Graded A+ and awarded 2nd place at Benha University Hackathon.
- Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Networks, Software Engineering.

Experience

Software Engineering Intern (.NET / Full-Stack)

Aug 2026 – Present

Linked Gates

Cairo, Egypt

- Contribute to HRKLIX, an enterprise HR/delivery-tracking platform exposing hundreds of API endpoints, built on Serenity Framework and ASP.NET Web API.
- Design medical ERP backend components using Onion Architecture, decoupling domain logic across 3 layers: Core, Services, and Persistence.
- Diagnose and resolve backend bugs on a daily basis across pharmacy inventory, dispensing, and appointment-scheduling modules to keep the platform stable.
- Integrate biometric logging services for real-time attendance tracking and automated shift scheduling.

Coding Instructor & Technical Mentor (Part-time)

May 2024 – Jun 2026

iSchool

Cairo, Egypt

- Exercised technical leadership mentoring 2 cohorts of 30+ coding instructors on CS fundamentals, OOP, and algorithms ahead of their teaching sessions.
- Standardized teaching quality and communication through ongoing code reviews and session delivery audits across cohorts.

Software Engineering Intern

Feb 2026 – May 2026

Maas

Cairo, Egypt

- Delivered 3 full-stack enterprise web applications using ASP.NET Core Web API and React within an Agile 3-developer team.
- Developed 8 secure RESTful API controllers with full CRUD operations, applying the Repository Pattern and Dependency Injection via EF Core.

Software Engineering Intern

Mar 2025 – Jun 2025

Quickly Egypt

Cairo, Egypt

- Constructed 18 modular React SPA views with client-side routing, protected authentication guards, wishlist, and payment flows.
- Collaborated within a 2-developer team using Git and GitHub for version control, feature branching, and code reviews.

Projects

Talabat Delivery | ASP.NET Core, ReactJS, Azure, Redis, SQL Server, JWT [GitHub](#)

- Architected an e-commerce backend using Clean Architecture, decoupling core domain logic from persistence and web layers.
- Integrated Redis in-memory caching to eliminate redundant database round-trips and reduce cart retrieval latency.
- Implemented secure Stripe checkout with webhook handlers, ASP.NET Core Identity authentication, and token-based JWT authorization.

Gym Management System | ASP.NET Core MVC, C#, SQL Server, Entity Framework Core [GitHub](#)

- Engineered a gym management portal across 8 MVC controllers using 3-Tier Architecture and the Repository Pattern.
- Implemented business logic across 5 core modules: membership renewals, trainer scheduling, session booking, attendance logs, and role-based permissions.

PlantCare Ecosystem | ASP.NET Core API, C#, EF Core, ReactJS, SQL Server [Demo](#)

- Architected a full-stack platform with 14+ relational models, JWT authentication, and 2 role-based portals (Admin and User).
- Engineered RESTful APIs utilizing DTOs, EF Core Code-First migrations, and optimized LINQ queries for efficient data access.

Technical Skills

Languages: C#, JavaScript, TypeScript, SQL, HTML5, CSS3

Backend & Frameworks: ASP.NET Core Web API, ASP.NET MVC, Serenity Framework, EF Core, LINQ, RESTful APIs, JWT

Architecture & Patterns: Clean Architecture, Onion Architecture, 3-Tier Architecture, Repository Pattern, Dependency Injection

Frontend, Cloud & Tools: React.js, Tailwind CSS, Bootstrap, Microsoft Azure, Redis, Docker, Git, GitHub, Postman, SSMS

Core Competencies: Technical Leadership, Cross-functional Collaboration, Problem Solving, Mentorship, Communication, Agile Practices, Ownership, Adaptability, Critical Thinking, Time Management, Attention to Detail
